

GABRIEL WAFULA

Full-Stack Developer | Next.js, React.js & Supabase Specialist

Royambu, Nairobi, Kenya | shikukugabriel06@gmail.com | shikuku-gabriel-wafula.vercel.app
linkedin.com/in/gabriel-wafula

PROFESSIONAL SUMMARY

Innovative Full-Stack Developer and CEO of JAHA Brand with 6 months of professional experience in crafting high-performance Progressive Web Apps (PWAs) and interactive UIs. Expert in the React ecosystem, specializing in Next.js, React.js, and Supabase to deliver scalable, end-to-end business solutions. Proven track record of bridging technical architecture with business strategy to drive digital transformation.

CORE COMPETENCIES

Frontend:	React.js, Next.js, TypeScript, Tailwind CSS, Framer Motion, jQuery, Bootstrap
Backend & DB:	Supabase (BaaS), PostgreSQL, RESTful API Integration
Tools:	Git/GitHub, Vercel, Cursor AI, Redux (State Management)
Specializations:	Agentic AI, Workflow Automation (n8n), PWA Development, Cybersecurity Auditing

PROFESSIONAL EXPERIENCE

JAHA Brand | Chief Executive Officer

Jan 2026 – Present

Nairobi, Kenya

- Founded and lead a digital solutions brand providing modern technical infrastructure for local businesses.
- Architected and deployed full-stack applications using Next.js and Supabase, reducing client manual processes through digitalization.
- Integrated advanced UI libraries like Framer Motion to increase user engagement metrics on client platforms.

Technical Freelancer | Full-Stack Developer

2025 – 2026

Nairobi, Kenya

- Developed and deployed interactive web applications, focusing on performance optimization and responsive design for mobile-first users.
- Implemented secure authentication and real-time database solutions using Supabase for diverse project requirements.

TECHNICAL PROJECTS

JAHA Food Delivery App: Built a comprehensive food delivery platform using React and Supabase, featuring real-time order tracking and secure payment integration.

jaha-foods-store.vercel.app

E-commerce Platform: Engineered a high-performance shoe and clothing store optimized for Vercel deployment with integrated inventory management.

shoe-cloathing-store.vercel.app

Portfolio Project: Successfully integrated a live portfolio with Supabase for dynamic content management and automated form handling.
